Cleveland, OH • (315) 760-7703 • [rdousa2@gmail.com](mailto:rdousa2@gmail.com) • <https://www.linkedin.com/in/somia-dousa/> • [Portfolio](#)

## PROFESSIONAL SUMMARY

---

Data Scientist with 2 years of experience in data analysis, machine learning, and service/product metrics. Proficient in Python, SQL, and R to drive data-driven decision-making. Skilled in analyzing complex data, applying statistical techniques, and effectively communicating insights to stakeholders. M.S. in Applied Data Science from Syracuse University (Convocation Master's Award/Fulbright Scholarship).

## TECHNICAL SKILLS

---

**Languages:** Python, SQL, R

**Data Science& Framework:** Linear Regression, Logistics Regression, Random Forest, Gradient Boosting, K-Means Clustering, Ensemble Learning, Hypothesis Testing, A/B Testing. ANOVA, Libraries/Frameworks: TensorFlow, Scikit-Learn, LangChain

**Data Analysis and Visualization Tools:** Tableau, PowerBI, Microsoft Excel

## WORK EXPERIENCE

---

**School of Information Studies, Syracuse University**

Graduate Research Intern

Remote

Jul 2024 - Present

- Developed personal Assistant AI agent using Python and LangChain framework to function as a data analyst, delivering statistical summaries tailored to business owners' needs aiming to improve operational efficiency.

**ZAIN (Leading Telecom provider operating in 8 markets across Africa and MENA Region)**

Data Scientist

Sudan

Sep 2020 - Aug 2022

- Developed interactive dashboards and reports using SQL and Power BI to track service metrics for a customer base of **12+ million**, providing actionable insights into network quality and data usage.
- Collaborated with marketing teams to optimize campaigns using supervised learning models (Random Forest) to predict Lead Quality and Lead Scoring, increasing lead generation by **7%**.
- Analyzed customer data with Python to identify patterns in communication preferences, reducing reliance on call-based support and decreasing customer service workload by **6%**
- Presented weekly reporting and insights sessions for GM and senior directors.

## EDUCATION

---

**Syracuse University, School of Information Studies, Syracuse, NY**

M.S., Applied Data Science

May 2024

- Achievements: Convocation Master's Award top (200+), GPA: 4.0, Fulbright Scholarship
- Courses: Applied Machine Learning, Big Data Analytics, Statistics, Information Visualization

**Petronas University of Technology, Engineering Department, Perak, Malaysia**

B.E., Electrical and Electronics Engineering

May 2016

- Achievements: Dean's List, GPA: 3.69, PETRONAS Scholarship
- Courses: Structured Programming (C/C++), Probability and Random Process

## PROJECTS

---

**Predictive Modelling to Address Health Disparities in Cancer Diagnosis**

Jan – April 2024

- Built and validated predictive models (Random Forest, Gradient Boost Classifier, Decision Tree, Logistic Regression) for forecasting metastatic cancer diagnosis timing, achieving an AUC of **81.35%** using PySpark.

**Data Warehouse Design for E-Commerce Databases**

Aug – Dec 2023

- Collaborated with a team of 2 to design a data warehouse using SQL and dbt on Snowflake to manage e-commerce data and improve reporting and analysis accuracy by **8%**.

**Service Degradation Analysis – ZAIN**

Aug - Dec 2021

- Analyzed network quality metrics (2018-2022) using SQL and Python, identifying performance degradation factors, and presented insights to senior management resulting in a **5% improvement in network quality**.
